

Does God Really Exist? **REALLY?**

Has Science Replaced God?

Darwinian Evolution and atheism aren't just in college textbooks. This ideology is everywhere – in your school's curriculum, in popular culture, and in societal values; even the Cartoon Network has gotten in on the act. We might not change the culture, but as believers, we must make sure the culture doesn't change who we are. Spend a day with us (or part of the day) looking at the evidence. We think you'll be surprised at how rational it is to believe in a Creator. The evidence is on our side.
